- The Board declares an interim dividend of 14.5 cents per share, same as last year

CHAIRMAN'S STATEMENT

Business review

During the period under review, the market experienced strong price competition and a challenging economic environment. Despite this competitive landscape, SmarTone's mobile postpaid Average Revenue Per User (ARPU) and customer base saw an improvement by 1% to \$224 and 2.65 million, respectively. 5G customers now represent 38% of our customer base, with an increase of 5% since December 2022. Service revenue, with the exclusion of Mobile Virtual Network Operator (MVNO), SMS, and prepaid services, rose by 3%. There are clear headwinds as well: aggressive price competition has put pressure on the lower-tier market segments, particularly MVNOs; SMS revenue has also significantly declined as COVID-related messaging went away. For this period, the profit attributable to equity holders amounted to \$246 million.

During the period there was a resurgence in outbound travel resulting in a strong recovery in roaming revenues which grew by 64% year on year. By December, roaming revenue had reached 86% of its pre-pandemic levels, marking a consistent quarter over quarter increase since the resumption of travel. This uptrend was driven by a strong demand for SmarTone's data roaming products among our premium customers. The proportion of SmarTone customers opting for our roaming services over third-party alternatives has more than doubled compared to the period before the pandemic. Our observation indicates that customers are willing to spend on a roaming service that provides reliability, convenience, and quality while traveling. SmarTone remains dedicated to meeting these expectations and will continue to invest to further stimulate growth in this sector.

Since its launch in 2020, SmarTone's 5G Home Broadband service has emerged as a material driver of growth for the Company. It offers an advantageous alternative for households lacking fiber connectivity, providing a faster, more affordable, and convenient service. Additionally, an increasing number of individuals, together with small to medium-sized enterprises (SMEs), are subscribing to this service, as they are attracted by the service's flexibility, ease of installation, and cost-effectiveness.

Throughout the review period, SmarTone's Enterprise Solutions division continued to deliver solid growth. The SmartHome solution was introduced in partnership with the SHKP Group in December 2023. This innovative offering leverages SmarTone's pre-installed estate-wide 5G network, coupled with a smart home platform and an in-wall Wi-Fi 6 network system, to enable homeowners to effortlessly connect devices for an unmatched smart living experience. Looking ahead, we are committed to pioneering new ideas, investing in our platform and product development, and expanding this emerging market in collaboration with the SHKP Group.

Persistently high inflation and a demanding macroeconomic landscape have exerted pressure on operating costs. Although our spectrum costs remain substantial, such expenses have peaked and are expected to gradually decrease moving forward. Management is dedicated to maintaining stable operating expenses by enhancing efficiency and productivity. Upholding a rigorous cost discipline without compromising quality remains a critical strategy for ensuring the Company's enduring resilience and allocation of resources towards future expansion.

SmarTone has solidified its leadership in the premium consumer market, earning widespread recognition for its exceptional network quality, outstanding customer service, and status as a leading brand. In December 2023, the Company was awarded the "Best 5G Mobile Network Operator" by the Communications Association of Hong Kong (CAHK). Additionally, in January 2024, it received the prestigious gold award in the "2023 Service Talent Award," organized by the Hong Kong Retail Management Association (HKRMA), for excellent service performance at both supervisory and junior frontline levels – a unique achievement for a telecommunications service provider in both categories. Moreover, SmarTone's online store was distinguished with the HKRMA's annual "Top 10 Quality Trusted E-Shops" award. These accolades affirm the Company's enduring commitment to excellence and service, underscoring its reputation for delivering superior value to its customers.

Dividend

The Board declared an interim dividend of 14.5 cents per share, consistent with last year. With a strong net cash position of \$1 billion, SmarTone stands to benefit from the high interest rate environment.

Outlook

In the short to medium term, the operating landscape is anticipated to remain challenging, influenced by the intensely competitive mobile sector and sluggish economic conditions. SmarTone's direction is clear with a focus on reinforcing its commitment to unparalleled customer service and outstanding network reliability.

At SmarTone, we have the aspiration to enable our customers to enjoy the benefits of new technologies and digital applications. These days everyone talks about digitization and artificial intelligence (AI), but in reality for the average user, these trends may feel remote and have little relevance to daily lives. This is not surprising – many of our users do not have the expertise to select the most useful applications, and some fear they will be exposed to cyber-security threats if they try new applications. We aspire to bridge that gap. In the coming year, we are excited to roll out a series of initiatives designed to enhance our customers' ability to use their mobile devices more effectively and safely. We will also offer valuable tips and tools aimed at encouraging them to embrace a broader range of technology in their daily lives. This will enhance their productivity, personal enjoyment and privacy, nomatter which life stage our customer is at. At the end of the day, we aspire to be more than a network provider – we want to be our customers' "trusted partner in digital life".

SmarTone has invested heavily in building a state-of-the-art 5G network in Hong Kong. We believe this is not just important for our customers, but is also a critical digital infrastructure for Hong Kong to be a technology hub. By general recognition, our 5G network is world-class in terms of speed, coverage and reliability. On top of the network investment, SmarTone pays heavy spectrum fees to the Government. For the past half year alone, the Group paid approximately \$270 million in spectrum fees to the Government; this amount actually exceeded the Group's overall net profit for the period. We appreciate the Financial Secretary's proposal to allow tax deductions for future spectrum costs, yet we disagree with the decision to exclude current spectrum expenses from this proposal, given that spectrum costs represent a critical operational expense vital for maintaining network operations – and historically have been eligible for tax deductions. The absence of tax deductibility on the spectrum held by SmarTone until December 2023 results in a significant fiscal impact, amounting to \$538 million on a cumulative basis. Consequently, SmarTone strongly advocates for the Government to restore tax deductibility to all spectrum costs, ensuring a conducive environment for investment and development.

Appreciation

I would like to take this opportunity to express my gratitude to our customers and shareholders for their continuing support, and to my fellow directors for their guidance. To our staff, I would like to thank them for their commitment and professionalism as well as their dedication and hard work during the period.

Kwok Ping-luen, Raymond Chairman

Hong Kong, 22 February 2024

MANAGEMENT DISCUSSION AND ANALYSIS

Review of financial results

During the period under review, the Group's profit attributable to shareholders was \$246 million (first half of 2022/23: \$256 million).

The total revenue of the Group was \$3,390 million, a drop by 11% as compared to \$3,809 million for the same period last year. The decline was mainly driven by the reduced handset and accessory sales during the period, while the gross profit from these sales was \$17 million, remaining stable when compared with last year. Our total service revenue was down marginally by 1% year-on-year, while our service revenue excluding revenue from prepaid, MVNO and SMS businesses has shown a high level of resilience with a growth of 3% over the period. This was mainly driven by the strong recovery of roaming business together with the continuous growth of our 5G Home Broadband products and enterprise solutions, which has compensated the pressure from the fierce competition landscape in the Hong Kong mobile market.

Cost of services provided for the six months ended 31 December 2023 increased by \$32 million or 15% to \$240 million (first half of 2022/23: \$208 million), which was in line with the corresponding increase in revenue from roaming and enterprise solutions businesses.

The Group has continued to devote significant effort in tightening cost discipline and improving operation efficiency during the period. Accordingly, our staff costs and other operating expenses were reduced by 2% and 3% year-on-year, to \$353 million and \$487 million, respectively.

Depreciation, amortization and loss on disposal decreased by \$7 million or 1% to \$881 million (first half of 2022/23: \$888 million), mainly due to reduced depreciation charges of network equipment given our cautious control over capital expenditure in recent years.

At the back of the Group's strong net cash position, our net finance costs (including accretion expenses on spectrum utilization fee and lease liabilities) was reduced from \$35 million for the first half of 2022/23 to \$16 million in this period, amid the full repayment of a guarantee note of \$1.4 billion during the second half of last financial year.

Income tax expense amounted to \$99 million (first half of 2022/23: \$100 million), reflecting an effective tax rate of 28.7% (first half of 2022/23: 28.1%). In light of the uncertainty of the tax deductibility of the spectrum utilization fee, certain related payments have been treated as non-deductible in calculating the tax provision, which contributes to the Group effective tax rate being higher than 16.5%. The Group will continue to vigorously defend its position and pursue tax deduction of the spectrum utilization fee from the Inland Revenue Department.

Capital structure, liquidity and financial resources

The Group maintained a strong balance sheet for the period under review. During the period, the Group was mainly financed by share capital and internally generated funds. As at 31 December 2023, the Group had a total equity of \$5,128 million, including share capital and reserves of \$110 million and \$5,018 million, respectively.

The Group's cash resources remained robust with cash and bank balances including short-term bank deposits of \$1,048 million as at 31 December 2023 (30 June 2023: \$1,155 million). Total borrowings of the Group was \$64 million as at 31 December 2023, as compared to \$66 million as at 30 June 2023.

The Group has generated net cash from operating activities of \$848 million during the period ended 31 December 2023. The Group's major outflows of funds during the period were payments for purchase of fixed assets, spectrum utilization fee, leases, taxation and dividends.

The directors are of the opinion that the Group can fund its capital expenditures and working capital requirements for the financial year ending 30 June 2024 with internal cash resources.

Treasury policy

The Group invests its surplus funds in accordance with a treasury policy approved by the board of directors. Surplus funds are placed in bank deposits and invested in financial assets at amortized cost. Bank deposits and financial assets at amortized cost are predominantly maintained in Hong Kong dollars and US dollars.

The Group is required to arrange for banks to issue performance bonds and letters of credit on its behalf.

Charges on assets

The Group's bank borrowings were secured by certain assets of the Group and the carrying amount of the pledged assets amounted to \$64 million as at 31 December 2023 (30 June 2023: \$65 million).

Interest rate exposure

As at 31 December 2023, the Group's total borrowing of \$64 million is subject to floating interest rate. Management considers the corresponding interest rate exposure will not have any material impact to the Group given the low level of borrowing. The Group does not currently undertake any interest rate hedging.

Functional currency and foreign exchange exposure

The functional currency of the Company is the Hong Kong dollar. The Group is exposed to other currency movements, principally in terms of certain trade receivables, bank deposits, financial asset at fair value through other comprehensive income, financial assets at amortized cost and trade payables denominated in United States dollars. The trade payables denominated in United States dollars is partially hedged with our deposits in United States dollars.

Contingent liabilities

As at 31 December 2023, the Group provided performance guarantees of \$623 million (30 June 2023: \$623 million).

Employees, share award scheme and share option scheme

The Group had 1,783 full-time employees as at 31 December 2023 (30 June 2023: 1,830), with the majority of them based in Hong Kong. Total staff costs were \$353 million for the period ended 31 December 2023 (first half of 2022/23: \$361 million).

Employees receive a remuneration package consisting of basic salary, bonus and other benefits. Bonus payments are discretionary and depend, inter-alia, on both the Group's performance and the individual employee's performance. Benefits include retirement schemes, medical and dental care insurance. Employees are provided with both internal and external training appropriate to each individual's requirements.

A share award scheme was adopted by the Group as an incentive arrangement to recognize the contributions by certain employees and to attract and retain suitable personnel for the development of the Group. During the period under review, no unvested shares (30 June 2023: Nil) were outstanding as at 31 December 2023.

The Group has share option scheme under which the Company may grant options to participants, including directors and employees, to subscribe for shares of the Company. As at 31 December 2023, 4,000,000 share options were outstanding (30 June 2023: 4,000,000).

RESULTS

Notes to the Condensed Consolidated Interim Financial Statements

1 General information

SmarTone Telecommunications Holdings Limited (the "Company") and its subsidiaries (together, the "Group") are principally engaged in the provision of telecommunications services and the sale of handsets and accessories in Hong Kong and Macau.

The Company is a limited liability company incorporated in Bermuda. The address of its head office and principal place of business is 31/F, Millennium City 2, 378 Kwun Tong Road, Kwun Tong, Hong Kong.

The Company has its listing on The Stock Exchange of Hong Kong Limited (the "SEHK").

These unaudited condensed consolidated interim financial statements ("Interim Financial Statements") are presented in Hong Kong dollars, unless otherwise stated. These Interim Financial Statements have been approved for issue by the board of directors on 22 February 2024.

2 Basis of preparation

These Interim Financial Statements for the six months ended 31 December 2023 have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34, "Interim Financial Reporting". These Interim Financial Statements should be read in conjunction with the annual financial statements for the year ended 30 June 2023. which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"). These Interim Financial Statements have been prepared on a historical cost basis, except for the financial asset at fair value through other comprehensive income, measured at fair value, and on a going concern basis.

The accounting policies applied are consistent with those of the annual financial statements for the year ended 30 June 2023, as described in those annual financial statements except for the adoption of the amendments to standards as set out below.

Amendments to standards adopted by the Group (a)

The Group has applied the following amendments to standards for the first time for their annual reporting commencing 1 July 2023.

HKAS 1 and HKFRS Disclosure of Accounting Policies

Practice Statement 2 (Amendments)

HKAS 8 (Amendments) **Definition of Account Estimates** HKAS 12 (Amendments) Deferred Tax related to Assets and Liabilities arising from a Single

Transaction

International Tax Reform - Pillar Two Model Amendment to HKAS 12

Rules

HKFRS 17 **Insurance Contracts**

The adoption of these amendments to standards has no significant impact on these Interim Financial Statements.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

2 Basis of preparation (continued)

(b) Amendments to standards and interpretations to existing standards not yet adopted

3 Segment reporting

The chief operating decision-maker (the "CODM") has been identified as the Group's senior executive management. The CODM reviews the Group's internal reporting in order to assess performance and allocate resources. The CODM has determined the operating segments based on these reports.

The CODM examines the Group's performance from a geographic perspective based on the location in which the sale originated. The CODM measures the performance of its segments based on earnings before interest, tax, depreciation, amortization and loss on disposal ("EBITDA") and operating profit.

An analysis of the Group's segment information by geographical segments is set out as follows:

10 Trade receivables

The credit periods granted by the Group to its customers generally range from 15 days to 45 days from the date of invoice. An ageing analysis of trade receivables, net of provision, based on invoice date is as follows:

Unaudited 31 December 2023 \$000	Audited 30 June 2023 \$000
360,439	280,536
35,081	16,490

PURCHASE, SALE OR REDEMPTION OF SHARES

During the six months ended 31 December 2023, the Company repurchased 2,988,000 shares of the Company on The Stock Exchange of Hong Kong Limited. These repurchased shares were cancelled prior to 31 December 2023. Details of the repurchases were as follows:

	Number of shares	Price per share		Aggregate
Month of repurchase	repurchased	Highest	Lowest	price paid
		\$	\$	\$
September 2023	1,923,500	4.10	3.98	7,801,000
October 2023	1,014,500	4.06	3.92	4,040,000
November 2023	50,000	3.94	3.92	197,000
	2,988,000			12,038,000

The Directors considered that the repurchases could lead to an enhancement of the Company's earnings per share. Save as disclosed above, at no time during the six months ended 31 December 2023 was there any purchase, sale or redemption by the Company, or any of its subsidiaries, of the Company's shares.

REVIEW OF INTERIM RESULTS

The Audit Committee of the Company has reviewed the interim financial statements of the Group for the six months ended 31 December 2023 as well as the report of the Risk Management Committee and the report of Internal Audit. The Committee was satisfied that the accounting policies and methods of computation adopted by the Group are appropriate and in line with the market participants in Hong Kong. The Committee found no unusual items that were omitted from the financial statements and was satisfied with the disclosures of data and explanations shown in the financial statements. The Committee was also satisfied with the risk management and internal control measures adopted by the Group.

The interim financial statements for the six months ended 31 December 2023 have not been audited but have been reviewed by the Company's external auditor.

The financial information disclosed above complies with the disclosure requirements of Appendix D2 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

CORPORATE GOVERNANCE

The Company is committed to building and maintaining high standards of corporate governance. Throughout the six months ended 31 December 2023, the Company has applied the principles and complied with the requirements set out in the Corporate Governance Code (the "CG Code") contained in Appendix C1 to the Listing Rules, except for the following deviations:

Code Provision C.1.6 of the CG Code provides that independent non-executive directors and other non-executive directors should attend general meetings to gain and develop a balanced understanding of the views of shareholders. Code Provision F.2.2 of the CG Code also provides that the chairman of the board should attend the annual general meeting. Mr. Kwok Ping-luen, Raymond, Non-Executive Director and Chairman of the Board, and Mr. Gan Fockkin, Eric, Independent Non-Executive Director, were unable to attend the annual general meeting of the Company held on 31 October 2023 due to overseas commitments or other prior engagements. The remaining eight Independent Non-Executive Directors and Non-Executive Directors (representing 80% of all independent non-executive and non-executive members of the Board at the time) attended the said meeting in person to listen to the views expressed by the shareholders. Mr. Fung Yuk-lun, Allen, Executive Director and Deputy Chairman of the Board, took the chair of the said meeting pursuant to the Bye-laws of the Company.

The Board will continue to monitor and review the Company's corporate governance practices to ensure compliance with the CG Code.

By order of the Board Mak Yau-hing, Alvin Company Secretary
