

Helping in the fight against the coronavirus SmarTone donates anti-epidemic packs to three local charities

(Hong Kong, 28 Apr 2020) The Coronavirus pandemic has been affecting Hong Kong for several months, and the shortage of anti-epidemic items continues to put a strain on the community. During this critical time, SmarTone volunteering teams initiated fundraising activities within the company, with all donations going into sourcing and purchasing anti-epidemic products such as surgical masks, hand sanitizers and alcohol wet wipes. These have been packed into over 800 anti-epidemic packs and distributed to elderlies, grass-roots families and the visually impaired by Hong Kong Sheng Kung Hui, St. James' Settlement and The Hong Kong Society for the Blind.

To connect the community with technology, SmarTone also linked up with organizations such as The Hong Kong Jockey Club and social enterprise educational platform EdFuture to provide free mobile data for underprivileged primary and secondary school students earlier. This gave support and assistance to people in need of technological help in this critical time of fighting the virus in Hong Kong.
