## **SmarTone and The Hong Kong Jockey Club join hands to provide free mobile data for underprivileged students to conduct e-learning during school suspension**

**(Hong Kong, 6 March, 2020)** To help students keep their learning momentum during the school suspension, SmarTone today announced it is joining hands with The Hong Kong Jockey Club in providing free mobile data. With the help of the Hong Kong Federation of Youth Groups and Boys' and Girls' Clubs Association, underprivileged primary and secondary school students can use the mobile data to continue their e-learning at home.

Schools are welcome to apply for mobile data SIM cards through the above organizations starting from 9 March and then can distribute the SIM cards to students in need, enabling e-learning on SmarTone's mobile network.
