

SmarTone Launches Satellite Voice and SMS Service Stay Connected Anytime, Anywhere with HUAWEI Pura 70 Ultra

(Hong Kong, 30 August 2024) SmarTone has officially launched its Satellite Voice and SMS Service. SmarTone customers can use this service on a compatible smartphone without changing their SIM card or phone number. This service ensures that customers can stay connected even in remote areas while hiking, at sea, or during emergencies and natural disasters. SmarTone's new Satellite Voice and SMS Service is compatible with the HUAWEI Pura 70 Ultra and is available for a monthly fee of HK\$28.

SmarTone's Satellite Voice and SMS Service requires only a simple setup, allowing customers to connect to the Tiantong Satellite network using compatible smartphones to make and receive calls, and send messages. SmarTone customers can always stay connected even in remote areas without mobile network coverage, such as mountainous regions or high seas. When faced with local network disruptions caused by natural disasters like wildfires or floods, customers can still make calls or send messages for assistance during emergencies¹.

To empower customers to fully enjoy the new Satellite Voice and SMS Service with the HUAWEI Pura 70 Ultra, customers who purchase the HUAWEI Pura 70 Ultra at SmarTone stores from now through 30 September 2024 can enjoy 12 months of free Satellite Voice and SMS Service². Additionally, new customers who subscribe and selected existing customers who renew or upgrade to designated 5G service plans while purchasing the HUAWEI Pura 70 Ultra will not only receive free local data, but also free roaming data and call minutes, a complimentary 12-month upgraded "SmarTone Screen Replace™" Service (value: \$350), and an upgraded "Mainland China & HK 1 Card 2 Numbers" (value: \$48/month).

The HUAWEI Pura 70 Ultra redefines traditional mobile photography, featuring an Ultra Lighting Pop-out Camera and a 1-inch CMOS. It supports super-macro mode at a distance as close as 5 cm and offers up to 200x zoom range. Equipped with a unique Ultra Speed Snapshot technology, it effortlessly captures fast-moving moments. When paired with SmarTone's high-quality network, it maximizes the potential of ultra-speed photography, delivering an exceptionally smooth and seamless experience.

Notes:

1. The Service is available to selected SmarTone customers. The Service is provided by China Telecom Corporation Limited Satellite Communications Branch via Tian-Tong Satellite. The service covers Mainland China, Hong Kong, Macau, Taiwan, Japan, Korea, Philippines, Palau, Vietnam, Laos, Cambodia, Thailand, Malaysia, Singapore, Indonesia, Brunei, East Timor, Myanmar, Bangladesh, Bhutan, Nepal. Whether customers can officially use this service depends on 1) the model of the device used and 2) the regulations governing the use of satellite networks in the respective region.
2. A 12-month contract must be signed, and after the contract period ends, the original monthly fee of HK\$28 will apply.
